VIBRATION SOLUTIONS INTRODUCES THE NEW SPEEDPLATE™ SYSTEM

Patent Pending

The Fastest Wheel Balancing Adaptor On The Market!

No need to struggle with finding the correct bolt pattern on a chart.

Infinitely Adjustable To Fit Bolt Patterns From 92mm To 185mm!

Simply rotate the handle which rotates the 4, 5 or 6 Centering Disks, with attached color anodized Torque Studs™.

Made For High Volume Tire Shops!

Superior engineering and construction ensures this adaptor can handle the daily abuse of high volume tire shops.

Superior Balancing Results!

Custom designed Torque Stud™ spring system beats the competition hands down with superior weight repeatability and angle repeatability. That's what wheel balancing is all about.

Available In 4, 5 & 6 Lug Versions!

Blue color for 4 lug/8 lug wheels, red color for 5 lug wheels and green color for 6 lug wheels. It's that easy!

Highest Grade Aircraft Aluminum Construction!

Strongest aircraft aluminum available ensures super high strength combined with light weight – just 2kg (4.4 lbs).

For Most Wheel Balancer Models!

Available to fit wheel balancers with 28mm, 36mm, 38mm and 40mm diameter shafts.
